EDUCATION

Chaudhary Charan Singh University, Meerut
B.Tech - Information Technology, - CGPA - 7.79

2023 – 2027
Meerut, Uttar Pradesh

PROJECTS

Direct Farmer-to-Buyer Marketplace(Smart Mandi) [🔗](#) | [React.js](#), [TypeScript](#), [Vite](#), [Firebase](#), [Git](#) .

- Built a live farmer-to-buyer marketplace with role-based authentication, crop listing, and real-time chat functionality.
- Implemented Firebase Authentication, Firestore Database, secure security rules, and state management using Zustand.
- Deployed and maintained the application using Git, GitHub, and Vercel CI/CD workflows

EduRole–Academic Management Platform. [🔗](#) | [MERN Stack](#)-[React.js](#), [Node.js](#), [Express.js](#), [MongoDB](#).

- Developed a full-stack academic management system with separate dashboards for Admin, Teacher and Student roles.
- Implemented secure authentication using JWT and role-based access control; added OTP-based email verification and password reset.
- Designed RESTful APIs using Express.js MVC architecture with middleware for authorization and request handling.
- Built features such as attendance tracking, homework assignment and student record viewing using React state management and MongoDB database.

Employee Salary Prediction System [🔗](#) | [Python](#), [Pandas](#), [NumPy](#), [Scikit-Learn](#), [Matplotlib](#) .

- Developed a machine learning model to predict employee salaries based on factors such as experience, education level, job role, and work-related attributes.
- Performed data cleaning, feature engineering, and model evaluation.
- Compared multiple algorithms and analyzed performance metrics.
- Visualized insights and model outputs through charts and statistical analysis.

EXPERIENCE

Artificial Intelligence and Machine Learning Intern [🔗](#)

June 2025 – July 2025

Edunet Foundation (in collaboration with AICTE)

Remote

- * Completed 6-week structured internship covers fundamentals of Machine Learning and Artificial Intelligence.
- * Worked with Python libraries such as NumPy, Pandas and Matplotlib for data preprocessing and visualization
- * Implemented basic ML models including Linear Regression and Classification on sample datasets.
- * Performed data cleaning, feature selection and model evaluation to understand prediction accuracy and performance metrics.

TECHNICAL SKILLS

Programming: Java, Python, JavaScript, SQL

Technologies/Frameworks: React.js, Express.js, Bootstrap, Node.js, Tailwind CSS, REST APIs

Database Tools: MongoDB, Firebase, Git, GitHub, Postman; development using VS Code, IntelliJ IDEA

Computer Science Fundamentals: Data Structures Algorithms, Object-Oriented Programming, System Design Fundamentals, Problem Solving DBMS, Operating Systems, Computer Networks

CERTIFICATIONS

- * Geodata Processing using Python ML, ISRO Dehradun.
- * Programming with JavaScript, authorized by Meta through Coursera
- * Microsoft Azure (25-hour Course)

EXTRACURRICULAR

- * Solved 186+ Data Structures and Algorithms problems using Java.
- * Selected among Top 10 teams in Internal Smart India Hackathon (SIH) for developing an Automated Student Attendance Monitoring and Analytics System.
- * Secured 3rd Rank in Declamation at Ch. Charan Singh University Meerut. Shortlisted under top 10
